

Creating Quotes Using MST Software

Objective

This SOP outlines the steps to effectively create accurate quotes using the MST software for both consumer and business accounts.

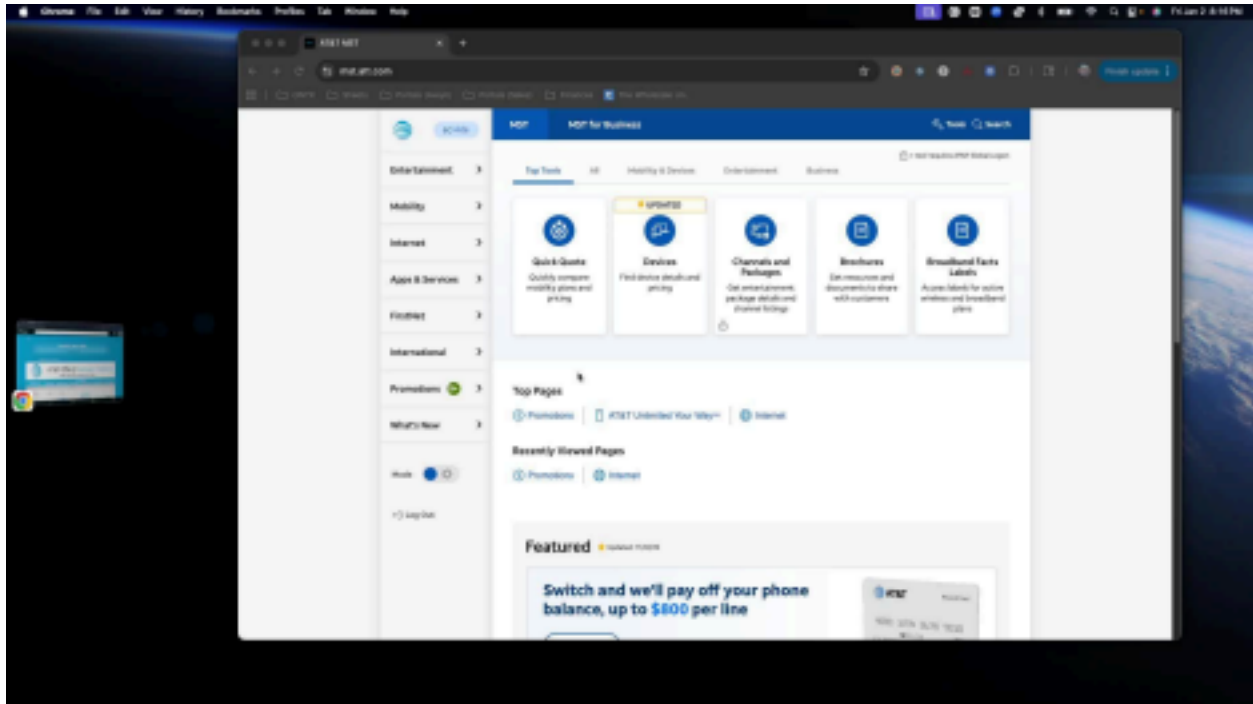

Key Steps

Accessing MST Software

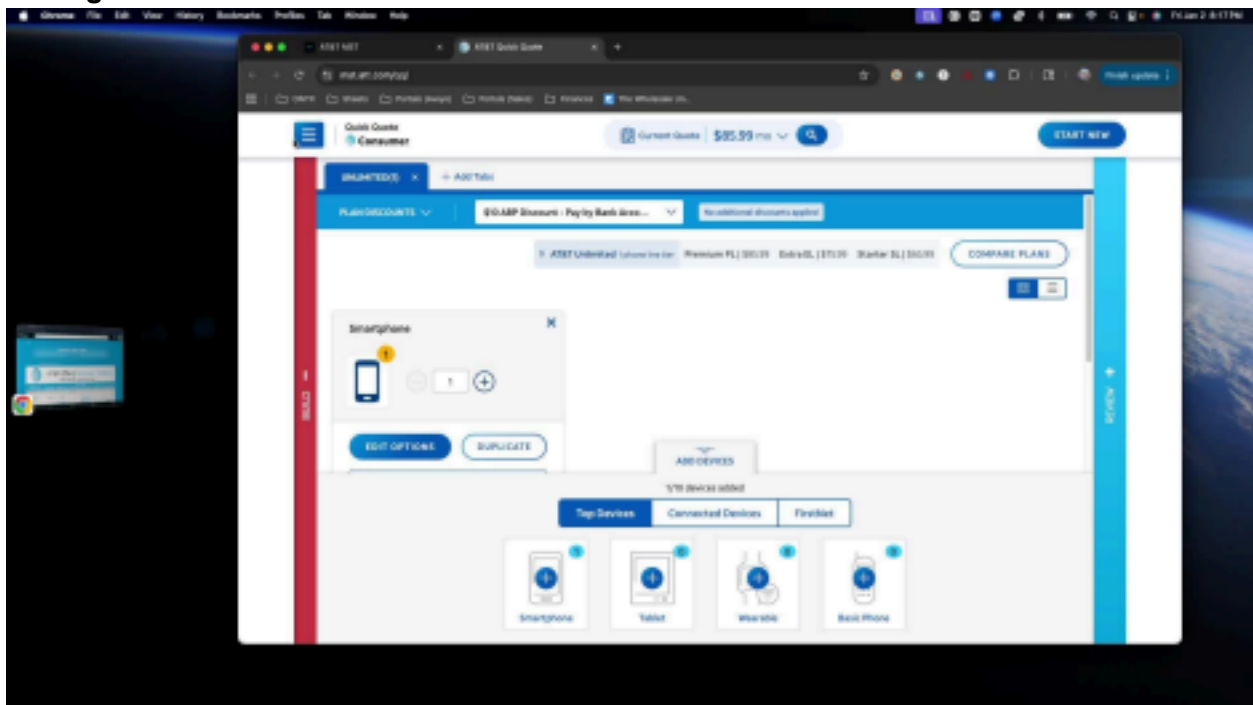

- Navigate to the MST homepage at MST.ATT.com.
- Log in using your credentials provided during onboarding.

Selecting Quote Type

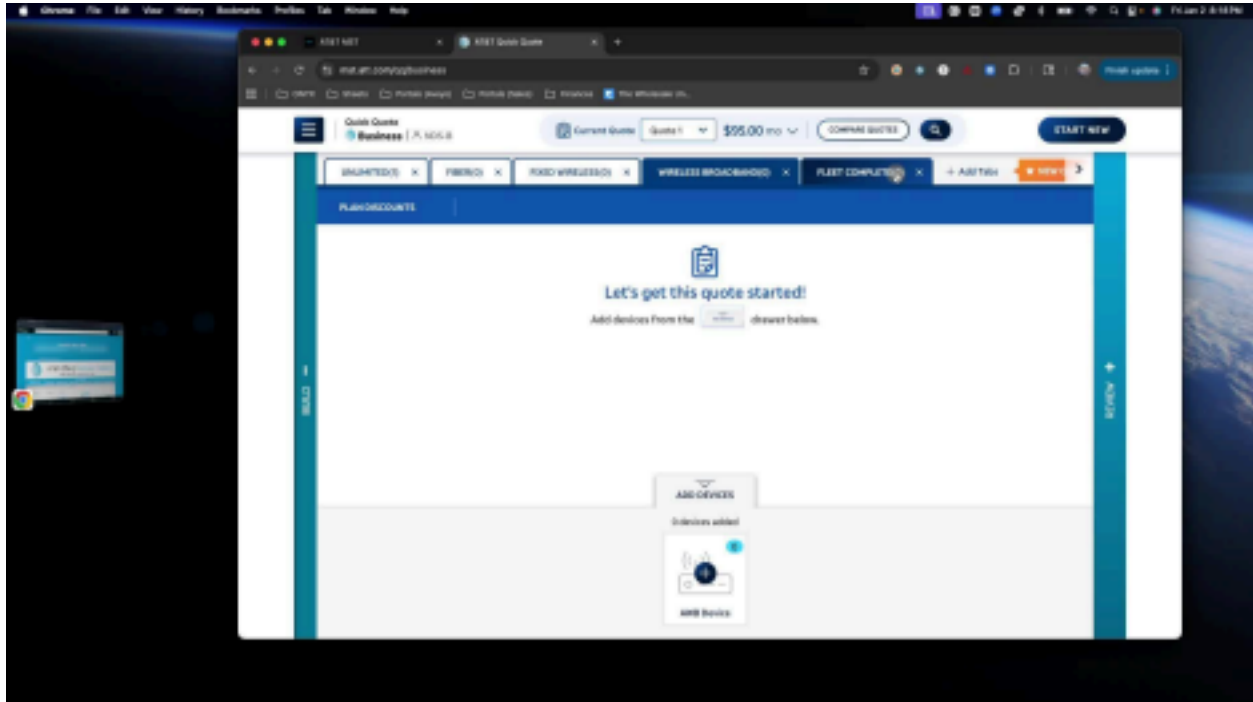

- On the homepage, locate the 'Quick Quote' option and click on it.
- Use the hamburger menu to select either 'Quick Quote Consumer' or 'Quick Quote Business' based on the customer type.

Setting Your Role

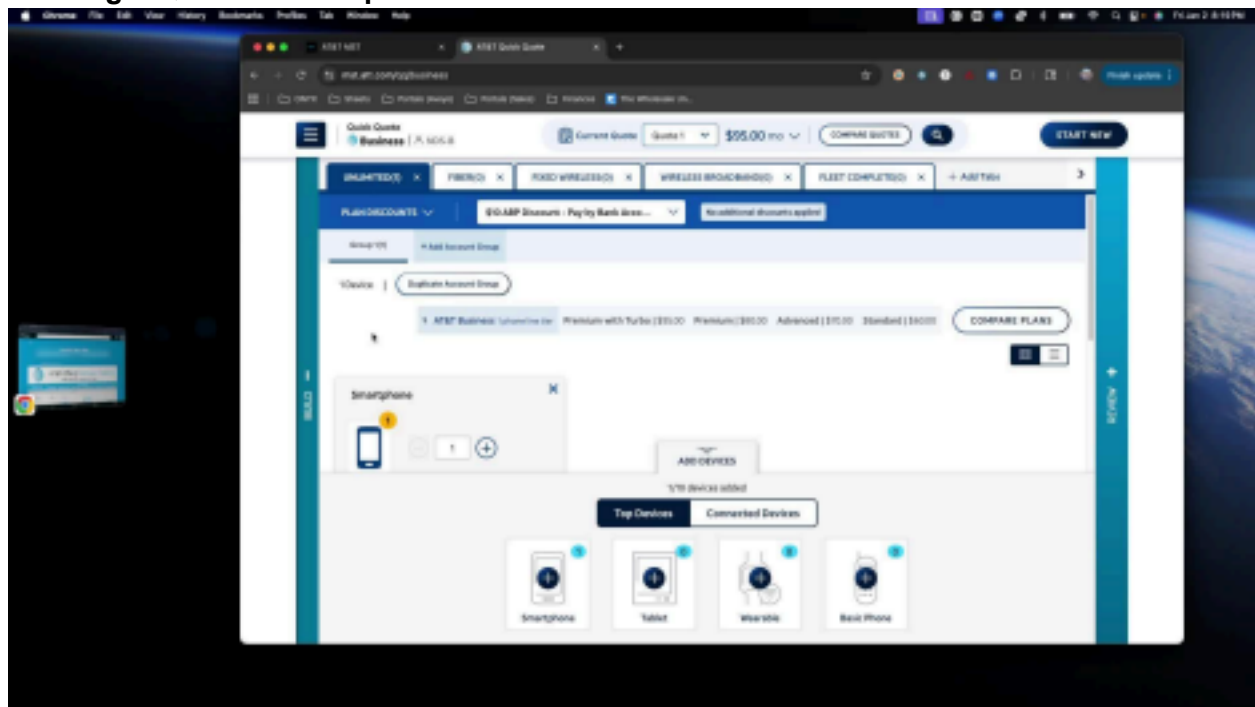

- If your role is set to 'Retail', click the hamburger menu.
- Change your role to 'NDS-B' and press 'Save'.
- Wait for the page to reload to access the correct promotions.

Adding Product Tabs

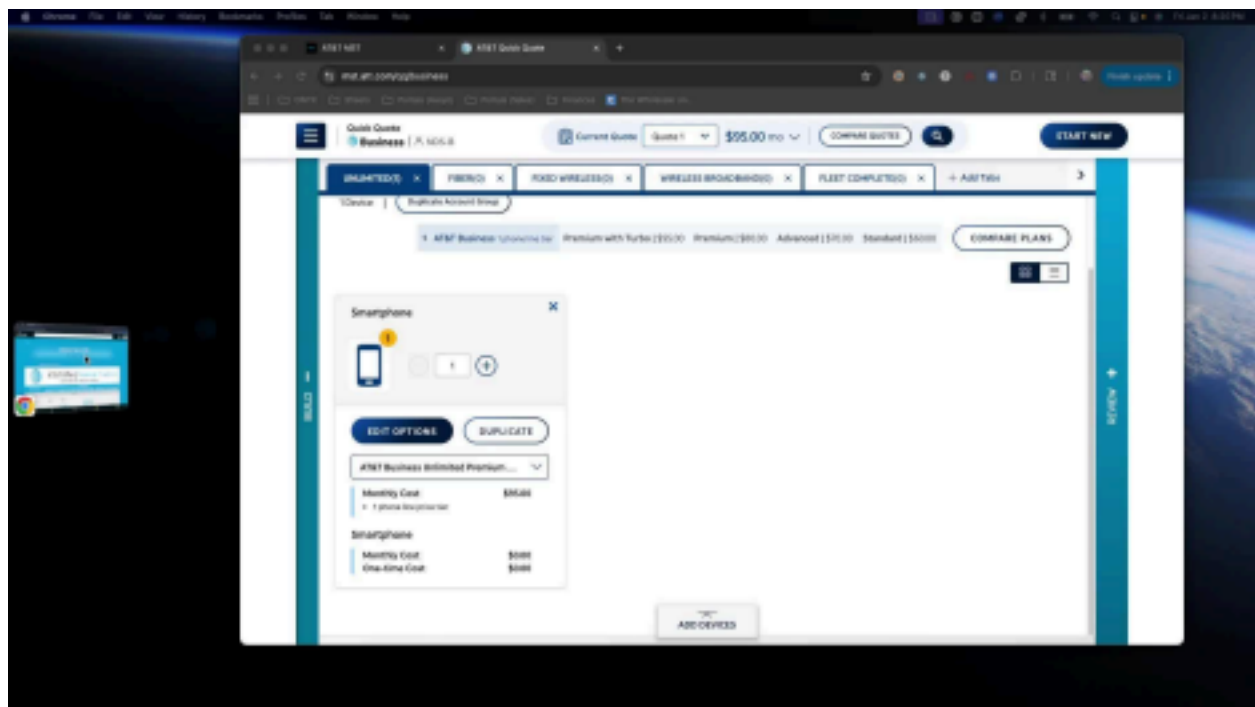

- Across the top of the page, you will see various product tabs.
- Click 'Add Tab' to include any additional products you may need.
- Focus primarily on 'Unlimited' and 'Internet' tabs for most quotes.

Building a Quote for Multiple Devices

- Start by adding devices one by one for clarity.
- For example, add an iPhone 17 Pro and select the appropriate trade-in offer.

Editing Device Options

- Click 'Edit Options' for each device.
- Select the service plan (e.g., Advanced).
- Add a Device Buyout Reward Card if applicable.

Selecting Device Type and Promotions

- If applicable, look up trade-in values for devices using the trade-in value lookup tool.

Adding Monthly Credits

Smartphone (1)

Apply a line credit?

Apply NDS-B credits

Monthly Credits

Not Applied

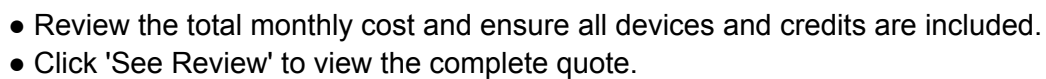

Offer

* Services, taxes, fees, and other charges additional. If services canceled, installment plan balance to buy upgrade. Data shown are approximate.

CANCEL **SAVE**

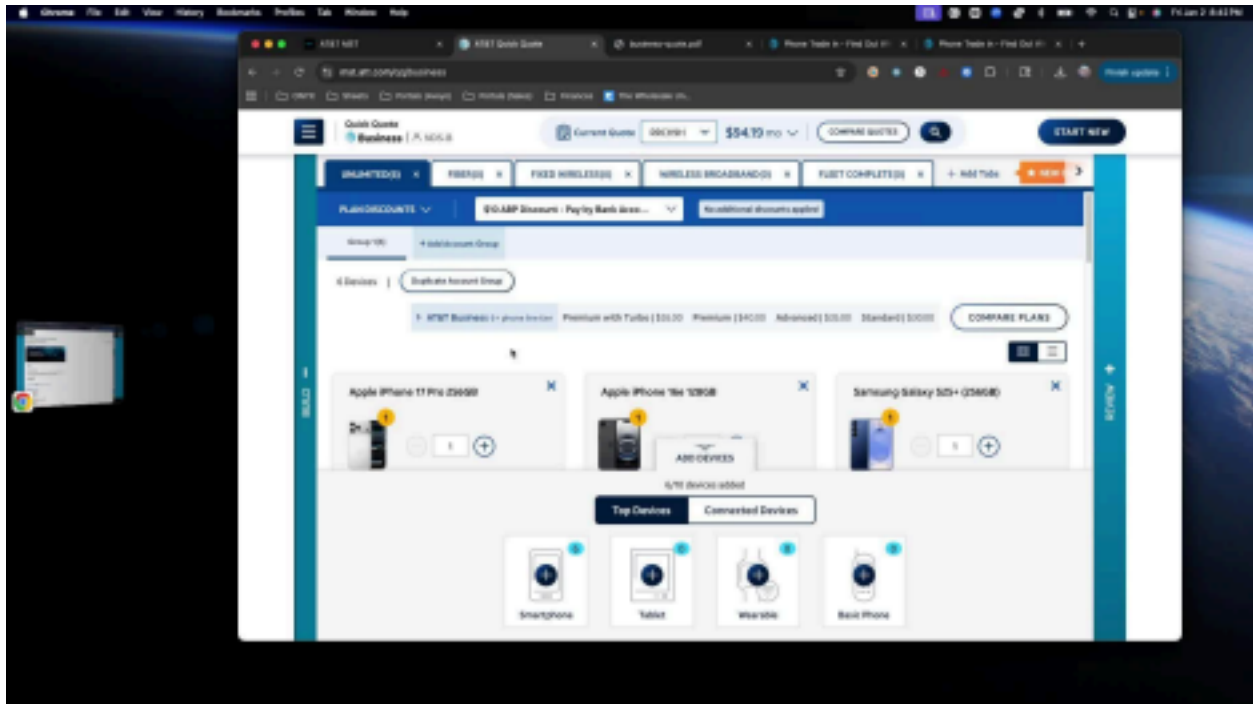

- Navigate to the Line Credit section to apply any available monthly credits.
- Ensure to stack credits appropriately based on the channel.

Finalizing the Quote

[illegible]

- Download the quote as a PDF.
- Send the PDF via text or email to the customer.

Tracking Quote ID

- Note the Quote ID for future reference.
- Store it in the notes section for easy retrieval.

Cautionary Notes

- Ensure all device trade-ins are accurately assessed to avoid discrepancies in quotes.
- Be aware that credits may take 2-3 months to apply after the trade-in is processed.

Tips for Efficiency

- Practice quoting with friends or family to gain confidence.
- Familiarize yourself with common promotions and trade-in values to speed up the quoting process.
- Use screenshots of key information to simplify communication with customers.
